

## **Air Canada Voluntary Buyout Program for Retiree Life and Health Benefits**

Many of you have commented on the Air Canada Life Insurance and Health Benefit Buyout program announced by Air Canada recently. Pionairs posted this information in Facebook, Twitter and the last Alliance, as this is how the majority of our members get information.

The Pionairs organization cannot make the decision for you, as it is a personal one. The most important thing is that you ensure you have sufficient health and life insurance to cover your present and future needs. We recommend you consult with your financial advisor or other trusted person to determine if some or all is suitable for you and act accordingly.

As clearly outlined in the document, the program is completely voluntary. If, after reading the details in the mail-out to eligible retirees, you feel it's not for you, or if you are in doubt, simply do nothing more. Your Life Insurance and Health Benefits will continue unchanged.

If you're not sure, we recommend the scheduled Information Sessions and/or Webinars for you to attend and ask questions. You can also ask questions through the Buyout Support Centre at 1-877-373-5814 or email [buyout.rachat@aircanada.ca](mailto:buyout.rachat@aircanada.ca)
